

Addressed Envelopes To & From Frederick W. Stevens

The first 12 were written by F.W.Stevens father, George Frederick William Stevens, in the years 1935 through 1937. Note the exaggerated flourishing style of hand writing.

Numbers 13 through 23 inclusive were written by Fred to his then wife Cecily Woodfull nee Pescott Stevens between 9/11/1935 and 31/1/1937.

Numbers 24, 25 & 26 were written by Fred's mother Emma (nee Daws), and mailed at Point Lonsdale

The authors of nos 27 & 28 are not known. Both are addressed to Emma Stevens and are dated 1917.

Numbers 29, 30 and 31 were written by Fred's sister Rubie Medic nee Stevens Wilson, all in 1935. number 32 was possibly written by one of Rubie's pen friends in UK.

Nothing is known of the authors of numbers 33 to 36 incl.

Numbers 37 through 43 were written by Fred's wife at the time, Cecily in the years 1935 - 1937.

Nothing is known of the authors of numbers 44, 45 or 46.. Number 47 is interesting in that the Stevens home was renamed "Samarai" around 1919. so this predates 1919.

Nothing is known of the remaining 4

Salamana.

15. 11. 37.

Dear George,

Here I am in the Mandated Territory of New Guinea - at Salamana. Mr Collopy & I left Port Moresby last Saturday at noon in a Fox moth & after a very thrilling ride in a single engined aeroplane through cloud, rain & over some of the worst flying country in the world we arrived at Wau. Wau is 3500 feet up in the mountains & has a beautiful climate. We had a cup of tea there & came on to Salamana, arriving about 4.30p. I am living here with Mr & Mrs Collopy. Salamana is one of the ports for Wau. The other port is Lae about 15 miles up the coast. All the cargo for Wau is unloaded at Salamana on Lae & carried up to Wau by aeroplane. All the material for houses, buildings, shops & huge gold dredges has been taken up there by aeroplanes.

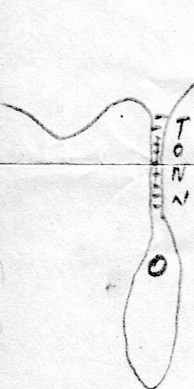

The town of Salamana is on a narrow isthmus. From Mr Collopy's veranda you could throw a stone into the water either side of the narrow neck of land. It is shaped like this:-

Where the O is in the sketch is a hill 500 ft high & it is almost straight up & down. I went up on Sunday & it is a stiff climb.

I hope you can read this as it is being written on my knee.

Hope you like the stamps.

Love to all from Da.
